Executive Summary

Sauce & Spoon wants to launch a pilot rollout of tabletop menu tablets at two of our restaurant locations, Sauce & Spoon North and Sauce & Spoon Downtown, to improve overall sales and table-turn times. The project includes researching and selecting a tablet and vendors, adding a revamped menu and special features to the tablets, training staff, and installing them at the bar areas of 2 locations. The system will be rolled out at the beginning of Q2 in April and monitored through the end of June to gauge success.

Methodology: We have developed a hybrid approach by integrating predictive and adaptive methodologies such as Agile, Scrum, and deep analysis of risks and changes to balance cost and time expectations.
